

Name – Kumar Vigyat
Reg. No. – 20BCE1760

Assignment -3

Implement JDBC using Java

Database

Reg.No	Name	Age
20BCE1760	Vigyat	22
20BCE1662	Aman	21

Connecting and displaying database

```
import java.sql.Connection;
import java.sql.DriverManager;
import java.sql.ResultSet;
import java.sql.Statement;

public class JDBCdemo {
    public static void main(String[] args) {

        String url="jdbc:mysql://localhost:3306/jdbcdemo";
        String username="root";
        String password="";
        try
        {
            Class.forName("com.mysql.cj.jdbc.Driver");
            Connection connection=
DriverManager.getConnection(url,username,password);
            Statement statement=connection.createStatement();
            ResultSet resultSet = statement.executeQuery("select * from
student");
            while (resultSet.next()) {
                System.out.println(resultSet.getString(1) + " " +
resultSet.getString(2) + " " + resultSet.getInt(3));
            }
            connection.close();
        }
        catch (Exception e)
        {
            System.out.println(e);
        }
    }
}
```

```
}  
}
```

Output

```
JDBCdemo x  
"C:\Program Files\Java\jdk-15\bin\java.exe" "-javaagent:C:\Program Files\JetBrains\IntelliJ IDEA Community Edition 2023.1.2\lib\idea_rt.jar=62973:C:\Program Files\JetBrains\  
20BCE1760 Vigyat 22  
20BCE1662 Aman 21  
  
Process finished with exit code 0
```

Inserting data into the database

```
import java.sql.Connection;  
import java.sql.DriverManager;  
import java.sql.ResultSet;  
import java.sql.Statement;  
  
public class JDBCdemo {  
    public static void main(String[] args) {  
  
        String url="jdbc:mysql://localhost:3306/jdbcdemo";  
        String username="root";  
        String password="";  
        try  
        {  
            Class.forName("com.mysql.cj.jdbc.Driver");  
            Connection connection=  
DriverManager.getConnection(url,username,password);  
            Statement statement=connection.createStatement();  
            String sql="INSERT INTO STUDENT "+ "VALUES  
( '20BCE1374', 'Priyansh', 23)";  
            statement.executeUpdate(sql);  
            ResultSet resultSet = statement.executeQuery("select * from  
student");  
            while (resultSet.next()) {  
                System.out.println(resultSet.getString(1) + " " +  
resultSet.getString(2) + " " + resultSet.getInt(3));  
            }  
            connection.close();  
        }  
        catch (Exception e)  
        {  
            System.out.println(e);  
        }  
    }  
}
```

Output

```
"C:\Program Files\Java\jdk-15\bin\java.exe" "-javaagent:C:\Program Files\JetBrains\IntelliJ IDEA Community Edition 2023.1.2\lib\idea_rt.jar=64916:C:\Program Files\JetBr
20BCE1760 Vigyat 22
20BCE1662 Aman 21
20BCE1374 Priyansh 23

Process finished with exit code 0
```

Updating the Database

```
import java.sql.Connection;
import java.sql.DriverManager;
import java.sql.ResultSet;
import java.sql.Statement;

public class JDBCdemo {
    public static void main(String[] args) {

        String url="jdbc:mysql://localhost:3306/jdbcdemo";
        String username="root";
        String password="";
        try
        {
            Class.forName("com.mysql.cj.jdbc.Driver");
            Connection connection=
DriverManager.getConnection(url,username,password);
            Statement statement=connection.createStatement();
            String sql="UPDATE STUDENT "+"SET AGE =30 WHERE Name IN
('Aman','Priyansh')";
            statement.executeUpdate(sql);
            ResultSet resultSet = statement.executeQuery("select * from
student");

            while (resultSet.next()) {
                System.out.println(resultSet.getString(1) + " " +
resultSet.getString(2) + " " + resultSet.getInt(3));
            }

            connection.close();
        }
        catch (Exception e)
        {
            System.out.println(e);
        }
    }
}
```

Output

```
"C:\Program Files\Java\jdk-15\bin\java.exe" "-javaagent:C:\Program Files\JetBrains\IntelliJ IDEA Community Edition 2023.1.2\lib\idea_rt.jar=51416:
20BCE1760 Vigyat 22
20BCE1662 Aman 30
20BCE1374 Priyansh 30

Process finished with exit code 0
```

Deleting the data from database

```
import java.sql.Connection;
import java.sql.DriverManager;
import java.sql.ResultSet;
import java.sql.Statement;

public class JDBCdemo {
    public static void main(String[] args) {

        String url="jdbc:mysql://localhost:3306/jdbcdemo";
        String username="root";
        String password="";
        try
        {
            Class.forName("com.mysql.cj.jdbc.Driver");
            Connection connection=
DriverManager.getConnection(url,username,password);
            Statement statement=connection.createStatement();
            String sql="DELETE FROM STUDENT "+ "WHERE RegNo = '20BCE1760'";
            statement.executeUpdate(sql);
            ResultSet resultSet = statement.executeQuery("select * from
student");

            while (resultSet.next()) {
                System.out.println(resultSet.getString(1) + " " +
resultSet.getString(2) + " " + resultSet.getInt(3));
            }
            connection.close();
        }
        catch (Exception e)
        {
            System.out.println(e);
        }
    }
}
```

Output

```
"C:\Program Files\Java\jdk-15\bin\java.exe" "-javaagent:C:\Program Files\JetBrains\IntelliJ IDEA Community Edition 2023
20BCE1662 Aman 30
20BCE1374 Priyansh 30

Process finished with exit code 0
```
